Sir,

On visiting the British Museum the other day, we were led from observing a portrait of Lodowick Muggleton to make enquiry at the library if the writings of John Reeve and Lodowick Muggleton were there and finding there is only a small portion we are induced to beg most respectfully to present to the British Museum three volumes containing the whole of their works extant, and also the several volumes relative thereto as under.

We are Sir with great respect your most Obt. humble servants
